

# Cannabis Cultivation

Online training - start January 2024

Delphy is organizing a high-level training in Cannabis Cultivation. The program is focussed on the cultivation of Cannabis in high-tech buildings like greenhouses or indoor facilities. Topics are all growing themes and cultivation techniques. The combination of theory and the practical application by Delphy experts makes this training unique.

The schedule will be:

- Every Thursday (January 25th until March 21st) an online lesson of 1,5 hours by Delphy experts.
- Every Tuesday (January 30th until March 26th) question-time to the Delphy expert.
